BETTER LENNOX

A BETTER PLACE™

LENNOX' ELITE® SERIES

Home Comfort Systems

LENNOX' ELITE® SERIES HP27 AIR CONDITIONER. ENVIRONMENTALLY SOUND ENGINEERING WITH HIGH ENERGY EFFICIENCY.

LENNOX MAKES YOUR HOME...A BETTER PLACE™.

Since 1895, Lennox has been a leader in home comfort technology. So we know what

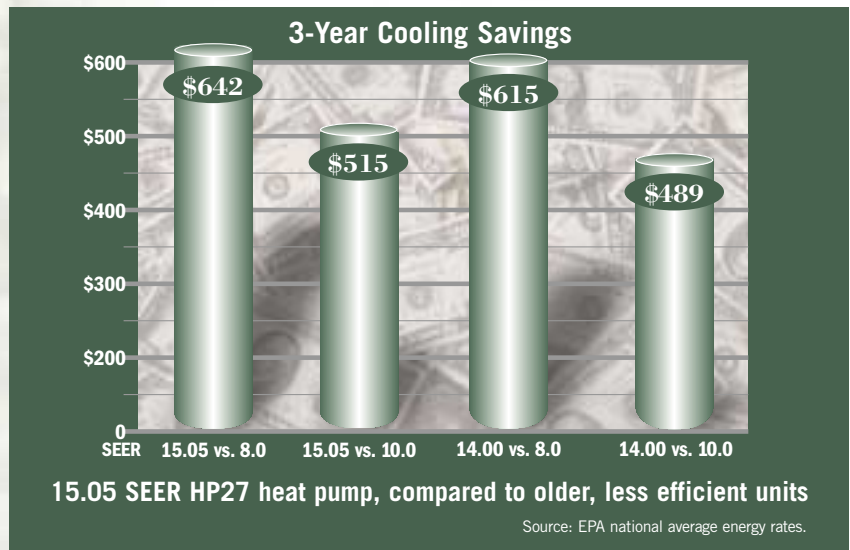

it takes to make you comfortable. It takes even temperatures, consistent airflow and the right amount of humidity. What it doesn't take is a lot of energy.

With impressive features and efficiencies, the Elite® Series HP27 heat pump delivers maximum comfort and energy savings. And by conserving energy, the HP27 helps preserve the environment. It's our way of making your home, your world, **A Better Place™**.

Energy Efficiency

When it comes to cooling efficiency, the higher the SEER and HSPF ratings, the greater the savings. The HP27 heat pump carries efficiency ratings of up to an impressive 15.05 SEER and 9.00 HSPF, which means more comfort for your energy dollars.

This chart compares the 3-year savings you can expect from an HP27 heat pump versus units with lower efficiency ratings. Costs are based on industry averages for a typical 3-bedroom house in a city with 1,200 cooling hours per year. Your actual savings will vary depending on the weather, local fuel rates, indoor coil and your lifestyle.

ENERGY STAR® Qualification Means Energy Savings

We're proud of the fact that the HP27 heat pump has earned ENERGY STAR® qualification, which means it meets the EPA's standards for energy efficiency. This translates to year-round comfort and energy savings.

**HP27
HEAT PUMP**

THE ELITE® SERIES HP27 HEAT PUMP DELIVERS COMFORT EFFICIENTLY AND ECONOMICALLY.

Energy Efficiency

- ① **High-Efficiency Outdoor Coil** – Provides exceptional heat transfer for energy- and cost-efficient operation.

Comfort Heating and Cooling

- ② **Dependable Scroll Compressor** – Helps to precisely control refrigerant to maintain air temperature and humidity levels for greater comfort. Heavy-duty casing further reduces operating sound.
- ③ **Precision-Balanced, Direct-Drive Fan** – Designed to run for quieter operation.
- ④ **Four-Way Reversing Valve** – Alternates between heating and cooling modes on demand for greater comfort.

Quiet Operation

- ⑤ **Insulated Compressor Compartment** – Reduces operating sound, making the HP27 so quiet you'll hardly notice it.

Reliable Performance

- ⑥ **Durable, Corrosion-Resistant Cabinet** – Constructed of heavy-gauge, galvanized steel and protected by a baked-on enamel finish.

- ⑦ **Enhanced Coil Guard** – Protects the condenser coil, maintaining the efficiency of the unit. Heavy-gauge steel construction and noncorrosive PVC coating assure long-lasting coil protection.
- ⑧ **Drainage Holes and Support Feet** – Prevent damaging moisture from collecting inside the basepan and protect the base against corrosion and wear by raising the unit off the ground.
- ⑨ **High-Pressure Safety Switch** – Provides a safeguard, protecting the life of the unit components.
- ⑩ **Solid-State Defrost Control** – Reduces stress of freezing temperatures by quickly and efficiently clearing the outdoor coil of frost and ice when needed during periods of extreme cold weather.

We build to the highest standards. We stand behind our warranties.

The HP27 heat pump is backed by a 10-year limited warranty on the compressor and a 5-year limited warranty on all remaining covered components.

Elite® Series HP27 Specifications				
HP27	024	030	036	042
SEER	Up to 15.05	Up to 15.05	Up to 15.00	Up to 14.00
Sound rating - dB	72	72	74	74
